

Cold-Applied Corrosion Solutions for Storage Tanks

15th July - Across 4 different time zones

About the Webinar:

In this webinar we will be discussing storage tank maintenance. Using practical demonstrations and case study examples, the speakers will explore topics including:

- **Using heatless and cold applied solutions and technologies to bond plates, equipment and composite patches onto corroded tanks**
- **How coatings can provide protection against corrosion, both internally and externally**
- **Sealing tank bases effectively, while letting moisture escape from the substrate beneath**

How to Register for the Webinar:

Date: 15th July 2019

Times: Four webinars will be delivered throughout the day. UTC - 3:00, 9:00, 15:00, 21:00

Duration: 20-minute interactive presentation, followed by a 10-minute live Question and Answer session

UTC 03:00
(Click here to Register)

Most suited for Australia and Asia region.

Local times:
Bangkok - 10:00
Sydney - 14:00

UTC 08:00
(Click here to Register)
